### 18.1. Applicable Laws and competent Jurisdiction

The CONTRACT is construed and shall be interpreted in accordance with the laws of Italy.

Nothing contained in these PURCHASE TERMS shall limit the rights of INGLASS S.P.A. available under the applicable law.

In case of a dispute, the parties shall make their best endeavors to solve such dispute amicably. If this should not be possible, the courts at INGLASS S.P.A.'S place shall have exclusive jurisdiction. INGLASS S.P.A. reserves the right to claim against SUPPLIER at SUPPLIER'S place. All disputes shall be settled in accordance with the provision of the CONTRACT and the documents pertaining thereto.

### 18.2. Assignment

Any attempt to assign, transfer, or delegate any of the rights, duties or obligations herein to a third party without prior written consent of the other party shall render such attempted assignment or transfer null and

### 18.5 Conflict Minerals

Conflict minerals are defined by the SEC as columbite-tantalite (coltan), cassiterite, gold, wolframite, or their derivatives, which are limited to tantalum, tin, gold and tungsten. Conflict minerals originating in the Democratic Republic of the Congo ("DRC") or an adjoining country, collectively defined as the "Covered Countries" may sometimes be mined and sold, "under the control of armed groups", to "finance conflict characterized by extreme levels of violence". Some of these minerals can make their way into the supply chains of the products used around the world, including those in the thermal spray industry.

INGLASS S.P.A. expects our VENDORS to have in place policies and due diligence measures that will enable us to reasonably assure that products and components supplied to us containing conflict minerals are DRC conflict free. INGLASS S.P.A. expects our VENDORS to comply with the EICC Code of Conduct (<http://www.eiccoalition.org/standards/code-of-conduct/>) and conduct their business in alignment with INGLASS S.P.A.'s supply chain responsibility expectations.

INGLASS S.P.A. expects our VENDORS to cooperate in providing due diligence information to confirm the tantalum, tin, tungsten and gold in our supply chain are conflict free. VENDORS are expected to implement a supply chain system of controls and transparency through the use of due diligence tools created by the Conflict-Free Sourcing Initiative ("CFSI") or other industry wide initiatives which includes the Conflict Minerals Reporting Template ("CMRT"), a supply chain survey designed to identify the smelters and refiners that process the necessary conflict minerals contained in our products.

INGLASS S.P.A. direct VENDORS that have smelter and refiner facilities within their supply chain that have not received a "conflict free" designation from an independent third party audit program are encouraged to participate in such a program and request country of origin and chain of custody information.
